

# Motorola 120c Display Replacement

This guide shows how to remove the Motorola 120c display.

Written By: Eric Dazet

## INTRODUCTION

This process involves first removing the battery, outer case, and motherboard. After, the display can be removed from the motherboard.

---

### TOOLS:

- [Tweezers](#) (1)
-

## Step 1 — Battery

- Hold the phone and pull the back latch down towards the bottom.
- Remove the back panel by releasing the latch and lifting from the top.

## Step 2

- Remove the battery by pushing the bottom end towards the top, then lifting up.

## Step 3 — Motherboard

- Once the battery is out, unscrew the six 7.0 mm screws with T-6 screwdriver.
- Once the screws are removed, simply lift the back panel off

## Step 4

- Remove the motherboard by lifting it up and out.

## Step 5 — Display

- Use tweezers to pry off the four clasps that hold the display in place.

## Step 6

- Remove the display.

To reassemble your device, follow these instructions in reverse order.
